

WORD SCRAMBLE

Unscramble the following words from the movie.

LOYCENC	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
OHPOYNT	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
ICOLTAPR	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
MRSOT	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>		

SEQUENCE SKILLS

Number the steps in the right order.

			
Water vapor from warm water rises and adds fuel to the storm. Winds swirl faster.	Storms form over warm water. Winds from opposite directions collide and start spinning.	An area of low pressure is created and the eye forms. The winds reach 119 kph and beyond.	High winds cause big waves and rough seas.

THINK ABOUT IT

Meteorologists use the letters of the alphabet to name hurricanes (the letters q, u, x, y, and z are not used). How do scientists name hurricanes once all the names are used in a season?
